

Advance Praise for *Caucus of Corruption*

By Matt Margolis and Mark Noonan

“Matt Margolis and Mark Noonan are known in political circles for their acute understanding of the hypocrisy of the Left. In *Caucus of Corruption*, Margolis and Noonan have cut through the smoke and mirrors to reveal what the liberals are really hiding: their complete lack of leadership and refusal to stand up for the values-based agenda most Americans are demanding. This book is a must read for all Americans looking for the unreported motivations behind the Left's political scene.”

—Former House Majority Leader Tom DeLay

“Washington, D.C., was built on a swamp and, as *Caucus of Corruption* shows, it has not gotten any cleaner. Margolis and Noonan remind us what the mainstream media has forgotten: that corruption is very much a bipartisan scourge.”

**—Richard Minter, *New York Times* bestselling author of
*Losing bin Laden and Shadow War***

“I’m saddened and exhausted hearing the constant tales of ethical failures coming from Washington—on both sides of the aisle. Matt Margolis and Mark Noonan have performed the thankless task of wading into the mud to expose those Democrats passing around this particularly nasty strain of ethical flu.”

**—Jason Clarke, *New York Times* bestselling co-author of
*Michael Moore Is a Big Stupid Fat White Man***

“Americans who voted for Democrats thinking the party of Nancy Pelosi and Hillary Clinton would ‘clean up the mess in Washington’ are in for a rude awakening, as Matt Margolis and Mark Noonan show in this carefully documented book. A powerful, important chronicle of the real ‘culture of corruption’ in the Democratic Party.”

—Robert Stacy McCain, reporter, *Washington Times*, and co-author of *Donkey Cons: Sex, Crime, and Corruption in the Democratic Party*
