

## **Advanced Praise for *Only in America***

*Only in America is the story of the Land of Opportunity—and of an immigrant boy who made the most of it. Paul Oreffice is an American original, and his account of his rise to the pinnacle of business leadership is filled with drama, inspiration, and wisdom.*

—**Gerald Ford, 38th President of the United States**

*Paul Oreffice's remarkable tale of turning insurmountable obstacles into triumph again and again is nothing short of inspiring.*

—**Newt Gingrich, Former Speaker of the U.S. House of Representatives**

*I have been an unabashed fan of Paul Oreffice for many years. As I have told everyone, he represents the best of what an American CEO is all about.*

—**Jack Welch, Retired CEO, General Electric**

*Paul Oreffice became a great American business leader by first becoming a great American citizen and patriot. His story, told here with his customary brio, shows how the free enterprise system provides opportunity to talented and determined people whatever their origins—and how it puts their talents to work on behalf of social welfare and prosperity.*

—**Dick Cheney**

*Paul Oreffice is the Vince Lombardi of the business world.*

—**Willie Davies, Inductee, NFL Hall of Fame**

*Paul Oreffice affirms that the American dream is alive and well. You won't be able to put it down.*

—**Peter Ueberroth, Former Commissioner, Major League Baseball**

*Only in America is a must read for all immigrants who wish to succeed in this country. Paul Oreffice's journey from Venice, Italy, to CEO of one of the world's greatest corporations is proof that an immigrant can make it to the top. If, like Oreffice, newcomers learn English, get a good education, set goals, and work with determination, they too will succeed. America loves winners, especially those who succeed the old-fashioned way by working harder and smarter than their competitors.*

—**Dexter Baker, Former Chairman, Air Products and Chemicals, Inc.**

*Long before the term was coined, Paul Oreffice pioneered the "globalization" of American enterprise. He did so by combining tough-mindedness with elegance, and firm principle with simple humanity. Having succeeded brilliantly at work, at play, and at many civic endeavors, he has done it again with this thrilling autobiography.*

—**Christopher DeMuth, President, American Enterprise Institute**
